

Applied GPU Programming - Assignment IV

DD2360 HT20

Pontus Asp

December 13, 2020

1 Git repository

I uploaded my git repository to GitHub. I use the same git repository for the entire course but the folder structure requested is still followed under the root folder. I also have 2 extra directories, one for this report and one where I have code from lectures. I also was not sure if Exercise 4 should have been separate or included in this report so I did both, the standalone Exercise_4.pdf can be found under the ex_4 folder.

Here is the link to my git repository:

https://github.com/pontusasp/kth-dd2360/tree/master/Assignment_4

2 Exercise 1

3 Exercise 2

4 Bonus Exercise

5 Exercise 4
